OBJECTIVES

A workshop on male genitourethral reconstruction, including live surgical demonstrations, lectures, complex case discussions, and video and poster presentations. It is intended to give early career urologists an opportunity to interact actively with faculty experts, as well as present their own work in the field of male genitourethral reconstruction. Nonetheless, this workshop is intended to everyone interested in genitourethral trauma and reconstruction.

TARGET AUDIENCE

This workshop should be attended by both senior and young urologists, urology residents, medical students and nurses interested in (and who deal with) adult male genitourethral reconstruction.

URETHRAL RECONSTRUCTION

ANTERIOR URETHRAL STRICTURES

(meatal and FN strictures, penile, bulbar and panurethral strictures)

POSTERIOR URETHRAL STRICTURES/STENOSES

(post-pelvic fracture disruptions, radiation-induced strictures / stenosis, bladder neck contractures)

ADULT HYPOSPADIAS

POSTERIOR URETHRAL COMPLICATIONS OF PROSTATE CANCER TREATMENTS

MALE URINARY INCONTINENCE

PENILE RECONSTRUCTION

PEYRONIE'S DISEASE

(plication, graft corporoplasty, penile implants)

OTHER PENILE DEFORMITIES

(micropenis, buried penis, etc)

GENITAL TRAUMA

(following penile cancer amputation, iatrogenic causes and accidents)

ERECTILE DYSFUNCTION

(surgical, medical and other conservative treatments)
